GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

Presidential Reception.

CHICAGO, Sept. 3—The reception by President Hayes at the Grand Pacific hotel this evening was of magnificent proportions. From 8:30 o'clock to 10 o'clock hundreds of people took him by the hand, while Mrs Hayes held a reception for ladies in another room. There was an unprecedented rush in the rooms, while outside the hotel and in the wide corridors and halls thousands upon thousands crowded, jostled and pushed in the vain hope of gaining precedence and reaching the presidential presence. At ten minutes after ten it became evident that not even a small minority of the applicants could gain admission within a reasonable hour. The doors were accordingly closed and the reception ended. The president's brief stay in the city has attested in a remarkable manner his popularity among the people. The party leave by special train for St Paul over the Northwestern road at 9 A M to-morrow.

CHICAGO, Sept. 4—The presidential party left for St. Paul by the Northwestern railroad at 9 o'clock.

BELOIT, Wis., Sept. 4—Train containing the president and suite arrived at 11:40 A. M. Some 3,000 people were at the depot.

Vermont Election.

WHITE RIVER JUNCTION, Sept. 4—Returns from 77 towns give Proctor 17,141, Bingham [illegible], 7,986, Martin, Greenback, 612. The same towns to be heard from gave in 1876 Fairbanks 24,536, Bingham 22,525. Returns from 30 towns in the third congressional district give Grant, Rep., 3,505, Waterman, [illegible], 2,082, Barlow, Butler and Greenback [illegible]. These returns indicate no choice in the third district. Returns from 27 towns in the first give Joyce, Rep., 5,128, Randall, [illegible], 2,546. Returns from 28 towns in the second district give Tyler, Rep., a majority of [illegible]

[Later.]—In 55 towns in the third district, Grant has 6,486, Waterman, 2,917, Barlow [illegible]

BURLINGTON, Vt., Sept. 3—Returns from [illegible] towns indicate a majority of 17,500 or [illegible] for Proctor and the Republican state ticket on a light vote. In the 1st and 2d districts Joyce and Tiller are probably elected by the usual majorities for off years. There is probably no election in the 3d district. In 32 towns Barlow, Greenbacker and bolter, has [illegible], Grant, regular Republican, 3,033, Waterman, Dem., 1,951. Burlington elects a Democratic representative.

Arkansas Election.

LITTLE ROCK, Sept. 3—Nothing but official returns in this (Pulaski) county can decide the result. Prospects are that some of both the Democratic and the Greenback ticket are elected. Phillips county goes Democratic by 800 majority; Ouachita county Democratic by 100 majority.

Congressional Nomination.

VANDALIA, Ill., Sept. [illegible]—The congressional Democratic convention of the sixteenth district renominated W. A. J. Sparks.

Pacific Mail Freight Circular.

NEW YORK, Sept. 4.—The Pacific Mail steamship company has issued the following circular, which is being mailed to principal shippers of goods to the Pacific coast:

Notice is hereby given that from this date and until further notice the goods hereafter mentioned will only be carried by this line at special rates, to be named prior to the departure of each steamer, and to be inserted in a special permit issued for the purpose of shipping: Bird cages, stamped ware, tin ware and wire goods, blankets, baskets, clothing, comforters, cotton bags and bagging, cotton piece goods, dry goods, [illegible] cloth, quilts, woolen goods and yarns in bales and bolts, shipped at owners' risk of chafing under written release; carriage or buggy tops packed in their boxes completely enclosing or in board crates or skeleton frames when not too large for the ship's hatches; furniture set up and well boxed, chairs and other furniture of all descriptions otherwise classified lower than fourth class; pianos, organs, melodeons and other musical instruments well boxed; ribbons, silk goods, thread, shoe thread and twine in cases or in bales shipped at owners' risk of chafing under written release; rubber boots, shoes, clothing and rubber boots not otherwise specified; rubber goods, druggists' rubber hose in cases and in bales released.

The Times says R. W. Hayes, the contracting agent of the Pacific Mail steamship company, upon being questioned admitted that it is proposed to increase the rate on the goods above described so as to secure an average of from $8 to $10 per 100 pounds. These goods are identical with those upon which the Pacific railroad companies recently doubled rates. Agents of these lines have persisted in claiming that the advance was temporary and was intended to do away with the practice of some shippers in sending express packages only by rail, and bulky goods by sailing vessels. They asserted that if the old rates continued it would continue in force when the roads received almost their proportion of both classes of articles. The deduction drawn from the new circular is that the high tariff will hereafter be a reality, the concurrence of the Pacific Mail company having heretofore been needed to enable its enforcement.

WASHINGTON CITY.

Decision by Sec. Schurz.

WASHINGTON, Sept. 3.—The secretary of the interior to-day rendered an additional decision to that of the commissioner of the general land office in the well known Dudy Mott case. An appeal was taken for a reversal or suspension of the former decision. Secretary Schurz declines to do either and the former decision, by which large tracts of land grants to railroads were thrown open to settlement, is to stand unless reversed by a decision of the courts. Immense numbers of applications have been made to enter lands under the former decision. It is expected the railroads will take immediate steps to appeal to the courts.

The Other Side.

CITY OF MEXICO, Aug. 21.—Reports in Texas papers of revolutions in Mexico are untrue. The country never was freer from anarchy than now, and no president has been so universally popular or so strong as Porfirio Diaz.

THE SCOURGE OF THE SOUTH.

The Fearful Fever Shows no Signs of Abatement—It Reaches Several New Localities and Attacks Natives and Visitors Alike—Death of Several Prominent Persons in New Orleans—Business Suspended and Towns Deserted—Many Dying Unattended by Physician or Nurse—The Appeal for Aid Still Made, and with More Urgency than ever.

NEW ORLEANS, Sept. 4.—The fever at Greenville continues to increase rapidly. 75 cases reported there and 11 deaths; 25 cases and [illegible] the city sexton reports 36 interments in the past 24 hours. One physician reports 60 new cases. The number of new cases will go far above other days since the fever appeared.

NEW ORLEANS, Sept. 4.—Weather unfavorable; heavy rain. New cases 212; deaths 7[illegible].

GRENADA, Miss., Sept. 4.—Since last night the reports are 12 new cases and 5 deaths. No abatement of the fever.

VICKSBURG, Sept. 4.—70 cases reported at Greenville, Miss.; 14 deaths; 30 cases and 4 deaths at Goodrich's Landing.

NASHVILLE, Sept. 3.—The American's special from Brownsville, 55 miles east of Memphis, says to-day has been a blue one—13 new cases and four deaths reported. The fever attacks natives and visitors alike. The Howards and city authorities have to bury the dead themselves. The town is deserted, all stores except drug stores closed; nurses, money and supplies needed.

NEW ORLEANS, Sept. 5.—The Howard Association issued over 1,300 rations to-day. A dispatch to the Howards from Ocean Springs reports two deaths from yellow fever yesterday and four cases under treatment. Father Charles is down with the fever.

LITTLE ROCK, Sept. 3.—Exceedingly warm and oppressive to-day; thermometer 91°. Aid for yellow fever districts still goes forward.

MEMPHIS, Sept. 4.—The condition of our city to-day beggars description. While the list of new cases reported is only about 60, the death rate has amounted to 76, only two of which were from other cause than yellow fever. Bodies were discovered to-day in out of the way places which have from appearances been dead several days. One peculiarity manifested among many of the sick is a desire to seclude themselves, while among the poor there is an unreasonable fear of being sent to the hospital or infirmary; hence the discoveries of to-day. Father Wm. Walsh, of St. Patrick's church, sends forth the following:

"I appeal to all Catholic societies for aid. Three priests alone remain. All others are dead or sick. Three hundred lives were saved at the Father Mathew's camp. Arrangements are being made to provide for orphans."

MEMPHIS, Sept. 4.—Mortality last night and this morning is fearful. Two undertakers report thirty interments of whites. The county undertaker reports 100 interments of paupers, three fourths of whom are negroes. Dr. W. R. Hodges and Postmaster Thompson died this morning. Mayor Flippin, A. R. Droescher, sergeant at arms of the general council, and city tax collector Schaffer are down with the fever.

HOLLY SPRINGS, Miss., Sept. 4.—Over 60 cases of fever here; 6 deaths. Stores all closed. People gone who can get away. Great need of nurses and physicians. Situation simply appalling. The outside world are appealed to for help.

GREENVILLE, Sept. 4.—Yellow fever cases to-day 19; deaths 10. Many of the poor are in a destitute condition. Nurses and physicians needed.

NEW ORLEANS, Sept. 4.—Deaths to-day include 15 children under 6 years. Dispatch to Howards from Canton says 1[illegible] cases and [illegible] deaths in the past 24 hours. Several parties died in the country who left town.

Relief Going Forward.

PITTSBURG, Pa., Sept. 4.—Contributions in this city to date for yellow fever sufferers exceeds $14,000, and the relief committee reports subscriptions steadily coming in. Three car loads of provisions were shipped to-day.

California Generosity.

SAN FRANCISCO, Sept. 4.—Local collections by Rev. Elkan, rabbi of the Temple Emanuel, and F. A. Haber among Israelites of this city, independent of what has been done by the former in connection with the general relief committees, amount to $2,500. The money has been sent by them to sufferers in instalments at different times. The Masonic lodges are contributing liberally, about $1,000 have been forwarded through the Grand Lodge of this state. Citizens of Fresno have forwarded to the committee of St John's Episcopal Church $126, to be applied to the fund in aid of the sufferers. At the regular meeting of Parker Lodge, No. 124, I. O. O. F., held last night, the sum of $225 was donated to the Odd Fellows' general relief fund of the south for relief of yellow fever sufferers. The United States surveyor general at Wagner and the employes of his office paid over to the treasurer of the relief committee this morning $70.

Santa Barbara Relief Meeting.

SANTA BARBARA, Sept. 3.—At a meeting of the citizens held at the city hall this evening to take steps to raise funds to aid in relieving distress in the southern states a committee was appointed and before the meeting closed $125 was subscribed.

OWES NO MAN A LIVING

Professor Sumner of Yale college happily hit off the socialistic fallacy that the government is paternal in its character and ought to provide everything a man needs. The other day the professor was before the Hewitt labor investigation committee for the purpose of discussing hard times when the paternal function of the government came up for discussion. The report says:

Prof Sumner said he could not understand what it meant by "a fair share" when the laboring classes complain that they don't get a fair share of wealth. "I don't get a fair share," said he. "It is nonsense to talk about a fair distribution of property in this country. Each man can get what his skill, industry, enterprise, self-denial, etc., is worth. It is absurd to talk about the government attempting to distribute things fairly. Society don't owe any man a living. The fact that a person is here does not imply that society must support him." The witness then went on to show [illegible] what would be the result if the government undertook to provide work and [illegible] of laughter as he said: "Suppose I am a man [illegible] married [illegible] Now must the government (which [illegible] provide [illegible]) provide for my wife too? Well then how many of my children must it provide for? Of course there can be no limit, and of course every young man will get married as soon as he can, and we will soon have such a population as no country could support. Capital would be constantly decreasing while the mouths are increasing, and we would soon become a nation of paupers."

AN AWFUL DISASTER.

Collision between the Princess Alice and the Biwell Castle on the River Thames—Of 800 Persons on the former over 500 are Drowned—The River Strewn with Persons Shrieking for Aid—The Victims nearly all Women and Children.

LONDON, Sept. 4.—The excursion steamer Princess Alice, returning from Gravesend this evening with about 800 passengers was run down off Barking about 8 o'clock by a screw steamer. It is reported that between 400 and 600 persons were drowned.

The Princess Alice was struck amidships and sunk almost immediately. The number of persons drowned is variously estimated at from 500 to 600. The higher estimate is the latest and is given by the London Steamboat Company, owners of the Princess Alice. The company's wharf is beleaguered by crowds of people anxious to hear of relatives and friends who were passengers on the ill fated boat.

LONDON, Sept. 4.—The steamer which sunk the Princess Alice is supposed to be the Biwell Castle, a screw collier bound north in ballast. The steward of the Princess Alice states that after the collision the other steamer proceeded without attempting to render aid. He estimates that 700 persons were on board the Princess Alice. She sunk bow first in five minutes after she was struck. Some small boats and another excursion steamer rendered what assistance was possible. The drowned include an extraordinary proportion of women and children. Several survivors speak of having lost as many as three, five and six children. They describe the water as being covered with hundreds of shrieking people. The captain and nearly all of the crew of the Princess Alice are drowned. They had no time to lower the boats and there were but few life buoys on the steamer. All the police of Woolwich town and arsenal were engaged last night labelling corpses, chiefly women and children, which completely fill the guard room at the steamship company's office at Woolwich. Passengers who scrambled on board the Biwell Castle say she threw ropes to people struggling in the water. The number lost is still uncertain. Comparison of the various accounts seem to show about 550. The Princess Alice was a paddle-wheel steamer with raised saloon. Her gross tonnage was 251 tons; that of the Biwell Castle 1,376.

The steamer Princess Alice, which was run into and sunk with such frightful results last evening by the collier, Biwell Castle, was one of the largest saloon steamers of the London Steamboat Company. The Princess Alice left Gravesend for London soon after 6 o'clock this morning, and arrived within sight of the royal arsenal at Woolwich at about 8. The Biwell Castle was then approaching on the opposite course. The two steamers were near the middle of the stream just off the city of London gas works at Beckton, almost the precise spot of the fatal collision between the Metis and Wentworth ten years ago. What happened is impossible accurately to detail. All that is known amid the maddening excitement is, that the screw steamer struck the Princess Alice on the port side near the fore sponson. A scene which has had no parallel on the river ensued. A very few persons clambered on the other vessel, but nearly all rushed to the after part of the Princess Alice as the bow subsided gradually under water. The shrieks were fearful and nothing could be done to save life. There were a dozen or more life buoys on board and some boats were swinging in the davits, but even if they could have been got at they would have been of very little service under the circumstances. Within five minutes the Princess Alice keeled completely over and went down in deep water. Some small boats hastened to the scene, and the Duke of Teck, another steamer belonging to the same company which was also on the passage up the river with a party of excursionists, went to the rescue, but the river for a hundred yards was filled with drowning persons, screaming in anguish and praying for help, and as it was growing dark then not much could be done. It is believed that no more than 150 persons escaped out of 800 aboard the vessel. The Princess Alice was a long screw river steamer built for excursions down the Thames, of which the middle and poorer classes of London are very fond.

LONDON, Sept. 4.—In the case of the Princess Alice disaster it is believed that both vessels were rounding a sharp bend in the river caused by projection of a point of land whereon the powder magazine of Woolwich arsenal is situated. In order to run this point the Princess Alice had crossed over to the right bank of the river and was thus out of her proper course. Her lights were probably obscured by the shadow of the powder magazine, and being much smaller and lower than the Biwell Castle the latter was upon her before the danger was perceivable.

RELIGIOUS MOVEMENT AT SEATTLE

SEATTLE, W. T., Sept. 3, 1878.

TO THE EDITOR OF THE OREGONIAN.

I thought it would be of interest to all well wishers of the cause of Christ to know of the progress of the good work now going on in this city under the direction of H. W. Brown. Let me say in the commencement that it seems strange that so many of our secular papers are careless about noticing these religious meetings in all their various interests to the community where they are being carried forward, as if they were a detriment to the well being of the community instead of the actual promoters of all interests and the cement that bind each stone to the other in building up the social, civil and moral fabric. The fact is we sometimes fail to get even a two line notice of any special meeting of this kind, which is of permanent importance to the religious public, without being made to feel that it is a great condescension on the part of the publisher and a coming down to allow such a use of the paper at all save as the merest local mention. The OREGONIAN always has been a friend and promoter of these interests, at least so far as our [illegible] goes, because it can serve the public interest by so doing.

Mr Brown came to this city and began his Bible readings on Sunday the 25th ult. in the Presbyterian church under the auspices of the Y. M. C. A. of this city, and has continued them daily and nightly, Saturday excepted, until the present with good, most goodly results apparent. A deep feeling has gotten hold of the people, both professors and non professors, that there is more in his salvation and more in the holy word of God than they had ever conceived of. True there has been no general rush which is too often the case in such efforts, and generally as evanescent as superficial, but a thoughtfulness which portends great good to the citizens and churches. The bible readings at 2½ P. M. daily are largely attended and at 7½ P. M. the large church is filled with listeners who give their careful attention for over an hour at times to the earnest and powerful delineation of God's truth. Mr Brown is a scholar of no mean attainments and if the learned or unlearned think his rendering of holy writ wrong he has the original, that all may satisfy themselves that he is not a manufacturer but a wise master builder. Critics are toning down their criticisms, faultfinders begin to find their occupation gone, and the work is progressing. A few have found Christ in his word and more are seriously considering the subject. Mr Brown is no perfect, neither does he claim to be, but as an unsectarian worker he is a success—as his work attests.

Last spring people of Silverton made to those in Salem a proposition that if the latter would take stock to the amount of $20,000 they would themselves then guarantee enough to build a narrow gauge railroad from Salem to Silverton. But Salem hasn't yet responded.

Note from Yamhill: The Yamhill narrow gauge has contracted with the City of Salem to give that boat freight to the exclusion of all other boats. The railroad company comes out with a poster announcing through rates from Dallas, Sheridan and other points to Portland, but no rate is given from Dallas etc. to Dayton. Isn't there a touch of monopoly here? If we are going for that legislation which some talk about, won't it bear down on the Yamhill narrow gauge too?

Wooing in the Sand.

[From the Atlantic City Times.]

The other day while the cottagers and visitors were wending their way to the bath houses preparatory to taking a plunge in the surf a young couple were seen gazing intently on the broken ribs of the Rockaway. She patted her little foot upon the weather beaten timbers and he kept time to the tattoo with a number nine boot. "Well, will you go in?" says he of the number nine. "I don't like to," said the fair maid with the little feet. He finally persuaded her to try it just a little. About fifteen minutes afterward the fair one's head was seen peeping out of one of the bath houses where she blushingly made known her dilemma. It appeared that the young man, on their way to the bath houses, had relieved her of her bathing robe and had inadvertently given his suit to her. She couldn't get the hang of the fixings and of course was in a dilemma. He was in a similar predicament. The young man in attendance, however, soon made the requisite exchange. Hand in hand they wandered toward the beach with blooming faces. The salt spray dashed over them as they told each other of their love. Thus the cooing and billing was done amid the shifting sands. They were in their Eden of bliss, which was only broken by a sharp shower coming up, when they hied back to their bathing houses and soon appeared in their ordinary attire. Before they left in the evening train the twain were made one by a visiting clergyman.

A NAME TO CONJURE WITH

HOW A REPUBLICAN NORTH CAROLINA COUNTY WAS CARRIED FOR THE DEMOCRACY—THE COLORED TROOPS FOOLED ON A NAME.

[Correspondence Cincinnati Enquirer.]

Northampton county has been, ever since the reconstruction of North Carolina in 1868, a stronghold of Republicanism. It contains many respectable, intelligent and substantial white Republicans, a considerable number of whom are Quakers. The negro vote predominates and it never failed to come solidly to the ballot boxes upon election day. For ten years the Democrats have made no serious effort to carry the county.

At the recent state election the Republicans made large gains in the adjoining county of Hertford and in most, if not all, of the other counties of the first congressional district. But lo and behold! Northampton went the other way and elected a Democratic representative by 133 majority. Here was a puzzling paradox. How the thing was done, however, appears below.

The Democratic candidate for the legislature was a Mr Jas. W. Grant. Like his illustrious namesake he is a silent man and makes no speeches. On the morning of the election, just previous to the opening of the polls, a man on horseback appeared at each voting precinct in the county, called up the colored voters and addressed them substantially as follows:

"Fellow citizens: I come to address you this morning as to the man you shall vote for. I shall say but few words and these will be especially directed to you colored people. I ask who gave you your liberties?"

"Grant! Grant! General Grant!" rent the air in a general yell from the dusky crowd.

"Who fought for you four years and took you from the bonds of slavery and made you a free and noble people?"

"Grant! Grant! General Grant!" again the shout went up.

"Then here are 'Grant' tickets I hold in one hand and 'Newsum' tickets I hold in the other. Which will you vote?"

"Give me de Grant ticket! Give me de Grant ticket! Hurra for Grant! I is for Grant every time, I is," was the unanimous response.

The thunderstruck Republican fuglemen were too dazed at the audacity of the spokesman and its success to interfere in season. The affair was a complete coup de main. By one of those sudden transports of enthusiasm which have seized upon men in crowds in all climes and ages, and to which the negro race is peculiarly susceptible, the colored voters caught it eagerly at the "Grant" ballots, rushed to the boxes and put them in. And thus Northampton returned a Democratic representative. At the single precinct of Jackson Square, which usually gives 400 or 500 Republican majority, Mr Grant got 441 votes over his Republican competitor.

Advance of Medical Science.

[From the St Louis Journal.]

A case is related to show how remarkable have been recent discoveries in medical science. Four colored men were charged with murder in Donaldsonville, La. The evidence against them was incomplete and entirely circumstantial. They were in a fair way to escape punishment when Dr Joseph Jones was called in to make a professional test of certain blood spots found upon the prisoners, which they alleged to be the stains of red paint. The tests were made by microscopical and chemical analyses. The doctor reported that "the spots were not only blood but that it was the blood of a human being who had suffered and was probably at that moment suffering from malarial fever." It was proved that Narcisse Arnaux, the murdered man, had been suffering with such a fever, and the negroes then confessed the murder and were subsequently hanged.

Beardless Heroes.

[Cincinnati Breakfast Table.]

An exchange observes that the great leaders of the past—Cæsar, Alexander and Napoleon—were beardless. Now for the giants of the present age: count them on your fingers: Samuel J. Tilden, Gail Hamilton, Beecher, Susan B. Anthony, [illegible] the [illegible] Tilton, Dr Mary Walker, Mrs Jenks and Dennis Kearney—why is it always thus, [illegible]?

Robert C. Winthrop has presented the Boston Public Library with a volume containing the original shorthand report of Webster's reply to Hayne [illegible] Mr and Mrs Gales [illegible] Mr Webster for the press, an appendix [illegible] by Mr Webster and the perfected speech as

STATE LAND OFFICE

AMOUNT OF BUSINESS DONE AT THE OFFICE AT LA GRANDE—MUCH LAND STILL UNSOLD.

[From the Union Sentinel.]

From Mr Joseph [illegible], register of state lands for [illegible] district, we have learned the following facts of interest about the amount of business done by this office; money, notes, land etc., now on hand.

From November 1, 1876 to June 30, 1878 there has been paid into this office the sum of $16,308.60 in coin. Outstanding notes now in hands of register amount to $13,537.68, with [illegible] lands still to dispose of. Many will doubtless be surprised at the amount of business transacted in this local office. The establishment and maintenance of this local office is one of the greatest benefits we have ever had conferred on us. A large amount of the land in this valley has been purchased from the state, on which a great number owe something. It is a convenience to them to be able to pay their interest here instead of at Salem. It is also of inestimable benefit to settlers to have the maps and plats of the land which they propose to purchase here, so that they can purchase intelligently. We ourselves were surprised at the amount of land still held by the state in this district, most of it too valuable as agricultural and pasturage land. Figures like these are the best argument in the world for a flood of emigration to this country.

A Great Man's Conscience.

[From the Springfield (Mass.) Republican.]

It was rather a neat incident from the life of the Father of his Country that was related in one of our local churches the other Sunday morning to enforce one of the preacher's points. It happened on one occasion during the first presidency that an appointment was to be made for which there were two conspicuous candidates. One of them was a long time and intimate personal friend of President Washington, the other a bitter political opponent. Naturally it was expected that the president would be governed by his personal preference and appoint the friend. The contrary proved the case however, and the opponent was selected. Asked for an explanation of his unusual course, this was Washington's reply: "The position in question requires for its administration great business capacity. This my friend does not possess. The other candidate has it. My friend I welcome to my home. I cherish in my heart; anything that George Washington can do for him will be gladly done. But this appointment is to be made by the president of the United States, and I am bound to disregard every personal consideration and remember only my duty to my office and the highest good of the public service."

Some Other Thurman.

[From the Cincinnati Gazette.]

It must have been some other Thurman who said in April 1874, during a debate in the senate on a bill for the establishment of the greenback as a permanent currency:

"Upon the measure itself I have a word to say. I simply mean that no man of my age shall ever again see in this country that kind of currency which the framers of the constitution intended should be the currency of the union, which every sound writer on political economy the world over says is the only currency that defrauds no man. It means that so long as I shall live and possibly long after I shall be laid in the grave, this people shall have nothing but an irredeemable paper currency with which to transact their business—that currency which has been well described as the most effective invention that ever the wit of man devised to fertilize the rich man's field by the sweat of the poor man's brow. I will have nothing to do with it, sir."

Women's Taste and Smell.

[From the Pall Mall Gazette.]

The marked superiority of women over men is on few points more remarkable than in their superior powers of smelling and tasting. A woman will detect the faintest odor of tobacco when a man, even though a non smoker, often fails to discover any symptom of it. As with smell so with taste. Women are marvelously acute and fastidious in the matter of sauces and all flavoring ingredients. This faculty has been recognized in a most pleasing manner by the composition of the jury who are to decide in Paris on the merits of the mustard of various nations. The mustard congress is to consist of twelve gentlemen and an equal number of ladies. This arrangement, it is stated, is owing to a suggestion that the palates of the men are vitiated by smoking, whereas women, who do not as a rule indulge in that pernicious habit, are likely to be better qualified to form a correct opinion on the merits of condiments.

Journalistic Heroism.

[From the Chicago Times.]

The Times correspondent at Grenada has remained within its plague stricken limits to do his duty to his fellow men as well as to this paper. He has nursed many whom the pestilence carried off in spite of care and skill. He has discharged his self assumed task in a simple, manly way, asking no credit for it and expecting none. In his dispatch printed on Friday morning he says, with what may prove a woeful prophecy: "The Times' specials are written in a house where there is one corpse and four are down, and I am so worn out as not to be able to write connectedly. What you get is authentic, written on the spot, but in a few days you may wipe me off the map."

Bay State "Respectability."

[From the Washington Post.]

It has taken the "respectability" of Massachusetts almost a quarter of a century to recover from the rude shock its delicate nerves encountered when the Know-Nothings ran Gardner and a horde of unknown men into office over the prostrate form of Whiggery. And now Ben Butler threatens to undo all the recuperative work of twenty three years. What is the use of trying to keep up such a "respectability"?

It is a striking proof of the world wide interest felt in Mr Stanley's discoveries that the English edition of his "Through the Dark Continent" appears simultaneously in the United States, Canada, France, Germany, Norway, Italy, Denmark and other countries.

The managers of the Boise City trotting park have decided to hold their annual meeting commencing October 13th. Citizens of Boise City have contributed the handsome sum of three thousand dollars as a special citizens' purse, free to all trotting horses.

New System of Wagon Brakes.
TRULLINGER PATENT BRAKE.
NO SHOES TO WEAR OUT TIRES!
No Brake Bar used. Will hold a Wagon anywhere from Backing or going Forward.

THIS NEW BRAKE NOW BEING INTRODUCED by the inventor J. C. Trullinger is a combination of friction gear applied to the hub of a wagon. It is simple and light yet has more strength and durability than any other wagon brake now in use. It is so attached to the wagon that it is out of the way of the gearing, yet always reliable and at hand when required. Any teamster or mechanic can see at once its utility and effective force to hold a load on a down grade or to prevent horse backing when required. The Brake is made entirely of iron, no wooden part being necessary, as no brake bar is used, hence it does not carry mud and is not affected by wet and muddy or icy roads.
We invite critical examination, as we believe its merits can be demonstrated to any party who uses or understands a wagon brake.

IMPORTANT MATTERS SET RIGHT

It appears from the speech which Senator Mitchell delivered the other night that he has been almost the sole friend of the Northern Pacific railroad He has labored for it with an unselfish and exclusive devotion The enemies of the road are ascertained to be such men as the senators and representatives from Minnesota the representative from our own state and the officers and stockholders of the company itself With a persistence that is unaccountable except on the theory that they didn t know their own interests and had no perception of the wants and interests of the country they threw all sorts of obstacles in our senator's way Perhaps they were secretly employed in the interest of Jay Gould Be the reason what it may it is certain that they did not appreciate and second the Oregon senator's methods and efforts That the owners and managers of the road and those who are so called friends of the enterprise have never recognized their benefactor is another of those signal instances of ingratitude, quite as shocking as the proverbial ingratitude of republics From first to last they didn t want the great advantages which our senator labored so hard to confer upon them and for more than six months they strove perversely to throw those advantages away Mr Mitchell labored untiringly to prove to the company that if they wanted to complete their road the best way was to put a great many limitations and conditions upon the grant It was clearly to their interest that the grant should be shared with another corporation that the company should have no control of the lands, that only the proceeds of the lands as they might be sold by the government in competition with its own lands along the route which it is also selling or giving away should be paid over for construction of the road and that even for the best lands in the most favored localities only $2 50 an acre should be charged Further it was their undoubted interest, and the thing they could do with the greatest ease and convenience to build a long section of their road immediately by a most expensive route along a great river where there would be competition with water navigation and the earnings of the road would not for years and until connection could be made with the productive country of the distant interior pay half the cost even of operating it It is so easy a thing for a company to lay out twelve to fifteen millions of dollars in a scheme like this particularly when they haven t got the money when a grant professedly made to aid them would not pay for a year even the interest on the amount and the money would be utterly sunk for years to come, just as the money invested in other railroads hereabout is sunk, that the wonder is the company did not at once jump at this brilliant chance But they did not nor did they even make any proper acknowledgment of indebtedness to the author of these proposed benefactions

Again we learn from this same speech that Mr Mitchell supported the interests of the country in his course on the Pacific railroad funding bill It was "the insatiate greed of corporate power" as manifested by the Northern Pacific —we quote his own words from a former speech —that he felt bound to oppose In his speeches on the Union and Central Pacific funding bill we heard nothing of "the insatiate greed of corporate power." The inference is, consequently, that these corporations constitute neither a great nor a dangerous monopoly True, they have recently doubled the rates of all freight across the continent, but no one appears to be authorized to say there is any "greed" in that There is strange popular misapprehension about this matter A great many seem to think that when government has built by direct appropriation out of the treasury a great railroad like this, it ought to assert and hold some kind of control over it They think it isn't quite the thing for government to give a few men an annual income of many millions apiece out of the general treasury, and while these few men live on this income with greatest magnificence and display in residences that surpass the palaces of royalty, permit them to go on without making any provision for their debts to government, and at last to step out of the roads and throw them upon the hands of the government, owing something like one hundred and eighty millions of dollars or three or four times what the worn out roads may be worth But people will often be unreasonable It is their willful blindness which renders them unable to see that there is no abuse in all this, but that it is the Northern Pacific which oppresses the country, and which it is the first duty of our statesmen to curb and restrain

It is the duty of the public press to set these things right, and THE OREGONIAN as a leading newspaper, seeking no favor and fearing no enmity is bound to discharge its share of this obligation Just so soon as it becomes generally known that it is Jay Gould who wants this northern railroad built, that the purse proud Northern Pacific company are opposing it and that the passage of the railroad funding bill is nothing but persecution and oppression of those self denying public benefactors who control the Union and Central Pacific and are struggling laudably to carry their load by occasionally doubling the rates of freight across the continent then there will be a great reaction in the public mind, and Senator Mitchell may expect full vindication

THE LATE ATROCIOUS CRIME

When the boy Swards, party to the O Shea robbery and the Joseph murder was captured a good many people were disposed to go to the extreme of leniency in forming excuses for him There was sympathy for his youth and inexperience, a mere boy had been over persuaded by wicked men, and it would be right to let him off without severe punishment. And now Avery, alias Brown, another of the gang, is captured, and suggestions are already heard that he can't be a very bad man because he doesn t look like it, has come from a respectable family, and was led into this shocking crime by the third one of the party who is still at large Now as Avery is the one who made the murderous assault on O Shea and killed the boy Joseph, it would be interesting to hear what excuses would be made for Johnson or by Johnson in case he should be taken Swards was led into it and is not to blame, Avery shouldn t be judged too harshly because it was Johnson who suggested the crime and as Johnson neither struck O Shea nor shot the unfortunate boy he really should have little to answer for It is hoped that very few persons in the community will give way to any weak suggestions of this kind A healthy tone of public sentiment should manifest itself in demanding full punishment of this most atrocious crime The punishment should be proportional to the offense and exemplary in its character In a case like this there should be no need of a jury except to give lawful form and expression to a verdict of guilty

African Explorers

A new book by Joel T Headley is announced This writer's style though no critic can commend it is nevertheless highly popular, most of his books having had ready sale In "The Achievements of Stanley and other African Explorers which is the title of the book now before us he has a subject well suited to his mind and style All the descriptive parts including the adventures appear to be in Headley's characteristic vein Apart from the features of the book the main facts of geographical and ethnological discovery by numerous explorers in Africa are brought under comprehensive review The career of Stanley and his discoveries and adventures receive special attention The book is profusely illustrated and altogether will be found quite entertaining Mr J M Edgar is agent for the book

The *Christian at Work* says A missionary at Lewiston Idaho recently wrote I find that not only the Bible but a rifle is a good companion for a missionary and it comments thus If Penn and Eliot and Brainerd found no need of rifles powder and bullets so neither have their modern successors The missionary who goes gunning for souls has evidently mistaken his mission The critic if he were in the missionary's place could find immediate reason for changing his mind It would not take him long to discover how good a companion a rifle as well a Bible is in such a situation The very best and most effective instrument with which the doctrines of the Bible have ever been enforced is this self same wicked rifle The influences of the Bible and of Christianity have been carried to the ends of the earth by it A sorry figure the Bible and civilization would have cut in America in India, in Africa unless backed by bullets and gunpowder

A renewed effort is being made by the Democrats of New York who oppose Mr Tilden to reorganize the party so as to leave him out Tammany's influence is again very active against him But Tilden who has heretofore been more than a match for all these enemies is still in the field What he doesn t know about political subsoiling isn t worth learning and he still expects to control his party in his state

The *Standard* says that among the organs which have been supplied with Mitchell's speech in the form of supplement is the *Bedrock Democrat* The silent money then, is still doing its work.

THURSDAY MORNING SEPT [illegible] 1878

CITY.

DEAD [illegible].—An old [illegible] German who was noted for no thing in particular only his very old and almost repulsive appearance an swering to the sobriquet of "Fritz" died yesterday morning at an early hour. "Fritz" whose real name was Frederick Crosbe lived in a little house situated near the first [illegible] gate in the brush just below the old penitentiary building. He was about [illegible] and having some little property [illegible] Mr Perry Davis was appointed guardian [illegible]. Crosbe acted so crazy at times that his guardian could scarcely do anything with him. Tuesday Crosbe seemed as well as usual. He ate a very hearty meal. The day evening and died quite suddenly yesterday morning. No inquest was really necessary but Mr Davis insisted upon one being had to show that he as guardian did all in his power. Coroner [illegible] was notified and proceeding to the house with a jury held an inquest. Several witnesses were examined who testified as to all the circumstances attending the man's death. Dr Strong also examined the body of deceased and finding no marks of violence gave it as his opinion that his death resulted from natural causes. The jury rendered the following verdict:

We, the jury duly summoned to inquire into all the circumstances attending the death of Frederick Crosbe, do find that he came to his death from natural causes; that he was aged from 45 to 50 and was a native of Germany. P Wagner foreman; D M Field, Henry Case, J B Sullivan, H. Wohlers, G Trey.

Deceased has lived for many years in Portland. So far as known he has no relatives on this coast except a brother. The remains were buried yesterday.

BENEFIT.—This (Thursday) evening a dramatic benefit will be given at Odd Fellows hall East Portland by Frank Wilton, J M Ward, Mr and Mrs Wade and others. The entire proceeds will be donated to the firemen's fund of East Portland and will be applied toward the purchase of a steam fire engine for the use of that city. This is certainly a most laudable object and the entertainment should be very liberally patronized. There will no doubt be a crowded hall.

UNCLE NED DEAVES.—We are pleased to announce that Uncle Ned Deaves, who until recently was a patient at St Vincent's hospital, will be the recipient of a complimentary benefit at New Market theater next Saturday evening. The benefit is tendered by his amateur and professional friends of Portland. A big bill may be anticipated. Particulars in to-morrow's issue.

FROM DREW'S SEMINARY.—Says the *Advocate*: "On Wednesday night, during the conference, the Rev J N Dennison, who is appointed to the East Portland charge and who has just returned from the Drew Theological Seminary in New Jersey, preached a most excellent discourse before the conference."

MEETING OF LONGSHOREMEN.—A meeting of longshoremen was held last evening and organized with twenty charter members. Con O'Brien president, P D Lyons secretary. The association is called The Longshoremen and Riggers Union.

PACKAGE OF LETTERS.—A package of private letters was picked up yesterday near the North Portland school building addressed to Mr John A Boyd. The owner of the package can have the same by calling at this office.

PERSONAL.

At last accounts S G Reed and family were in London.

Gen. M V Brown was in the city yesterday and gave us a pleasant call.

Mr C E Tilton of New York arrived here on the steamer after an absence of several months.

Gov Thayer will go to Salem next Monday and will soon thereafter enter upon his duties as the chief executive of Oregon.

Hon Sol Hirsch, one of the state senators from Multnomah, returned on the steamship Oregon from a short trip to San Francisco.

Bishop Bowman, bishop of the United Brethren church, arrived on the last steamer. He is the presiding bishop of the conference upon the coast.

Rev C. V. Anthony, who has been the pastor of Taylor street church in this city for the last two years, has been transferred by Bishop Andrews to the California conference.

A pleasant call is acknowledged from F. A. Belcher, Esq. and A. Abbott Esq. Mr Belcher is a brother of Judge Isaac Belcher of the supreme court of California. Mr Abbott is connected with the banking house of Rideout, Smith & Co of Marysville California. We found both to be affable and engaging gentlemen. They return to San Francisco on the *Oregon*.

Geo E. Strong Esq arrived in this city Tuesday and gave us a very pleasant call last evening. He comes on important business connected with the California and Oregon Land Company and the war department. Mr Strong has recently returned from a trip to Lake county and the Stein Mountain country. He is in an excellent state of preservation and has lost none of his wonted vivacity and exuberance of spirit.

POLICE COURT NOTES.

Edward Likes, assault and battery, case compromised, defendant paying costs.

H. C. Kay, carrying a concealed weapon, fined $15.

John Roos, assault with a dangerous weapon, held to answer in the sum of $400.

Coy Lan, disorderly conduct, dismissed.

Lee How, same offense, $50 paid.

Harry Wilson, larceny, case continued.

John Doe, abusive language, case continued.

Harry Bolson, d d, $10 unpaid.

John O'Donald, same offense, $10 unpaid.

— Bradford, same offense, bail forfeited—$10.

Peter Powquiet, same offense, $5 unpaid.

Sam Dennis, same offense, same fine unpaid.

A Sutherland, same offense, $5 unpaid.

Thomas Daley, disorderly conduct, $15 unpaid.

BRIEF NOTES.

We are to have ten days of State Fair this year.

Next week the saloons will be busy as beavers at Salem.

It was Joseph Tyler and not Riley who assisted Cain in the capture of Archie Brown.

Watermelons at a quarter apiece now puts the cost within reach of the poorest and the humblest.

Two of the robbers and murderers caught. Pretty safe to predict that Johnson will soon be in the clutches of the law also.

The funeral of the late Daniel W Lowe took place yesterday afternoon from the hospital and was largely attended.

INCREASING THE POLICE FORCE

The following petition, which was very numerously signed by the prominent business men of Portland, was read and placed on file:

To the Hon [illegible] Council of the City of Portland—GENTLEMEN: In view of the increase of crime and the large influx of disreputable persons arriving in this city without occupation or means of livelihood, and feeling that the number of the police force is not sufficient to maintain the good order of the city and protect our property and perhaps our lives from desperadoes and lawless individuals in our midst, we the undersigned residents and taxpayers do most earnestly and respectfully petition your honorable body to authorize the appointment of at least five additional policemen on the regular force of this city, and as in duty bound we will ever pray.

Signed by 163 firms and business men.

ANCHORAGE

The following petition, signed by the Oregon Steamship Company, Oregon and California and Oregon Central Railroad Companies and a number of the principal business men of Portland, was read and referred to the committee on landings and wharves:

The condition of the local money market requires no extended comment, about the same state of quietness with a steady demand prevailing, which has been remarked from time to time during the past two months. The chief call at present comes from parties in the grain trade, which is increasing in volume from day to day. Rates are firm and unchanged.

Merchants who have extensive connections with the interior are none the less cautious in allowing credits, now that the operation of the bankrupt law has ceased, as they generally entertain the belief that the difficulty of realizing anything at all from insolvent debtors will be greater than ever before.

It has been remarked that while the dispatches and newspapers from other local ties, and especially from commercial centers, have been bringing news of a general rush into bankruptcy during the last days of August, there has been little or nothing of the kind in our city and state, a fact which, it would seem, demonstrates the prosperity of business men and the solid foundation on which the trade of Oregon and Portland rests. In other cities with a proportionate amount of trade, the bankruptcy courts were kept in an unusual state of activity, while here the law passed away in its operation without causing the smallest ripple in the current of business.

The general market to-day is not materially changed, trade in domestic produce being quite active, especially grain, of which receipts during the past 24 hours have been larger than for any similar period since the harvest year began. Prices for wheat have been rather weaker abroad as will be seen by our dispatches below, but the local market has a quiet and steady tone.

DR. PAUL M. BRENAN.

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Private Diseases.

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. But where he has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.
